- ### Current Strategy
- NMI is:**
- The industry leader in executional excellence
  - Currently operating a 4 week call cycle
  - Visiting/servicing the highest volume stores the same way we service the lowest volume stores
  - Spending value time and resources visiting remote locations

---

---

---

---

---

---

---

### The Future of NMI

---

---

---

---

---

---

---

## Future of NMI

### What we want NMI to become:

- Not only the industry leader in executional excellence, but the leader in strategic merchandising
- A conduit and resource for the Sales and Merchandising teams (and the company as a whole)
- A strategically positioned field organization that is flexible and nimble to meet and adapt to the growing needs of Nintendo's business

---

---

---

---

---

---

---

## Roadmap to Success

---

---

---

---

---

---

---

## Roadmap to Success

### How we will foster change:

- Develop an integrated Sales and Merchandising force
  - Create greater interaction between the NAMs & NMI
  - Develop cross-functional training programs to promote growth opportunities
- Create a new call cycle
  - Focusing our efforts on the most important accounts and the top volume stores within those accounts
- Provide greater autonomy while servicing stores
  - Provide NMI with the tools to make smart merchandising decisions
- Increase the amount of time you have in key accounts to explore other merchandising opportunities
  - Explore merchandising concepts
  - Provide feedback to HQ teams to help foster creative ideas

---

---

---

---

---

---

---

## Closing Summary

- Nintendo is a highly innovative company that has been able to adapt to the needs of the marketplace
- Accordingly, we also need to remain innovative and be able to adapt and change to meet the needs of both our internal and external customers

BEYOND GREAT IN '08!

Nintendo®

## A Note from the Executive Team

We just completed the most exciting year in Nintendo's history. We should all take pride in this. Our great products, coupled with your dedication, drive and competence were key components to our momentum in the market. As we continue our momentum and sales growth in 2008, it is important to consider the key components that support our performance.

- A strong culture that facilitates people doing their absolute best work
- The ability to attract, grow, and retain the best people
- Great products that produce powerful results in the marketplace

In January 2007, we launched the Denison Culture survey to help us better understand the strengths and opportunities of the "strong culture" side of the triangle. We took our key learnings and applied them throughout the year through various programs and initiatives. The focus on this area paid off: the 2008 Denison Survey results showed we made significant strides towards achieving a more constructive and positive culture and climate at NOA. Enhanced clarity and control over "how we do things here" is helping to establish Nintendo as one of the best places to work in America.

Thank you for taking the time to complete the 2008 Denison Culture survey and for sharing your perspectives. This brochure details the results, focus areas and next steps. Your invaluable feedback has helped us identify the areas we need to focus on to drive the company forward in 2008 and beyond.

-The Executive Team

Front (L-R): Jim Cannataro, EVP, Administration; Mr. Takahashi, EVP, Special Assignment; Jacqualee Story, EVP Business Affairs; Mike Fukuda, EVP Business Development  
Back (L-R): Don James, EVP, Operations; Mr. Kimishima, Chairman and CEO; Reggie Fils-Aime, President and COO; Cammie Dunaway, EVP Sales & Marketing

## 2008 Denison Results

As shown in the chart below, we have made gains in a number of our focus areas. For 2008, you will see more color on the wheel, with higher percentile ratings in every area. In big and small ways, we are clearly doing things differently here. Thank you to everyone for your contributions to these improved results.

### Some specific activities that have led to these improvements include:

- Clear articulation of NOA's Vision and Values as an organization: a defined picture of where we are going and how we want to get there.
- Visible, tangible business objectives to focus all of our daily activities.
- Regular communication by the NOA Executive Team and sharing of best practices across the whole organization.
- Cross Functional Committees: Global Teamwork, Commit to Collaborate, Transition Committee and Adaptability Committee.
- Rigorous, frequent communication (Directors' meetings, staff meetings, Nsite).
- Detailed communication of the 2007 Denison data and discussion of "what this means to us" at all levels.
- The launch and staffing of the new People and Organizational Department creates an internal resource to provide new programs, services, training, coaching and support to manifest learning in every area.

## Focus Areas for 2008

After a detailed examination of the data, the NOA Executive Team has selected four focus areas for our ongoing culture transformation for 2008:

### 1 Communication and Collaboration

We will create rigorous two-way interaction and information-sharing across various levels and functions, allowing all employees to make decisions and do their best work. The complexity of our communication requirements has increased significantly as a result of our new remote offices and the ever-increasing volume of information we need to share. These factors reinforce the importance of exchanging ideas, knowledge and requirements with others in the company. We can accomplish much more working together than apart.

### 2 Embracing Change

Nintendo's vision requires us to reach new audiences in new ways, which demands that we do things differently within our own walls. Flexibility, creativity, and new and improved ways to work will enable us to match our innovation in the market with innovation within NOA. We can appreciate and respect the wisdom of the past while seizing opportunities for the future.

### 3 Customer Focus

Our relationships with our customers--whether internal or external--are vital underpinnings of Nintendo's continued market momentum. How we treat each other ultimately impacts how we nurture valuable relationships with both our end customers (retailers) and consumers. Maintaining service orientation at all levels and in all ways, combined with understanding our impact on the continuous customer supply chain, is vital to achieving our vision.

### 4 Learning

We will support employees with the tools, training and development to foster their best effort towards satisfying business needs. We will treat every employee as a leader in their respective area, responsible for their part in shaping Nintendo's culture and overall executional excellence. Implementing PLAN, DO, CHECK, ACT, methodology will assist us in driving continuous learning and enhancing our adaptability.

"We appreciated the effort to communicate corporate goals and vision. It helps me frame the work I do in terms of how it will advance these goals."

Nintendo Employee

"We noticed that business processes had become more flexible, and better at responding to change."

## Key Elements of NOA's Vision

**Nintendo's Vision: Entertain and enrich everyone!**

**Nintendo of America Company Purpose: Ignite and satisfy demand by delivering "wow" experiences and services that bring big smiles.**

### 2008 Business Objectives

- Drive sales and manage infrastructure growth
- Know your customer and provide outstanding service
- Deepen the consumer experience
- Expand the gaming universe
- Commit to "One Focused Organization"

### Nintendo of America Core Values

**Excellence in Execution:** We strive for the highest level of quality and pursue world-class performance with discipline and humility. We expect excellence from our partners and ourselves.

**People:** Creativity, commitment, flexibility, and integrity are key components to achieving our success. We work hard to create an environment in which people thrive and can do their best work. We invest in developing leaders who value people as our most important asset.

**Global Teamwork:** As an important part of worldwide Nintendo, we nurture our key partnerships, both internal and external, recognizing that Nintendo's success is enhanced when we work together.

**Spirit of Fun:** Nintendo's products entertain and enrich everyone. We approach our work with the same appreciation for fun and innovation.

Clear vision, focused business emphasis, and Nintendo's rich core values, provide a roadmap for **what** we want to accomplish this year and beyond, and **how** we want to accomplish this work together.

"Better communication is a 'whole' regarding the big picture which gives employees the foresight to see beyond their own responsibilities and areas."

Nintendo Employee

## Next Steps

The NOA Executive Team has committed to an extensive rollout of the 2008 Denison results to every division in April and May of this year. Our specific goal is to facilitate robust two-way exchange and dialogue between all of us and to share suggestions for things we can **keep doing, start doing, and stop doing** as we transform our culture.

We hope and expect that each of you will attend these sessions and that you will seek unique ways to contribute to positive, cultural enhancements and to the development of an improved working environment at NOA in the short and long term.

We look forward to hearing about your energy, excitement and ideas for making Nintendo one of the best places to work in the world!

"This is a chance for  
the Nintendo  
community and  
employees that live  
- and dream with  
always and never  
for their company."

Nintendo Employees

"This year we have  
been encouraged to  
look at our problems  
and consider how  
they could be made  
more fun, strategic  
and an opportunity  
for learning at all  
levels."

# Overview of the Denison Model

The Denison Model is based on four key concepts:

## Adaptability

**Patterns...Trends...Marketplace**  
*Translating the demands of the business environment into action.*

*"Are we listening to the marketplace?"*

## Mission

**Direction...Purpose...Blueprint**  
*Defining meaningful long-term direction for the organization.*

*"Do we know where we are going?"*

## Involvement

**Commitment...Ownership...Responsibility**  
*Building human capability, ownership and responsibility.*

*"Are our people aligned and engaged?"*

## Consistency

**Systems...Structures...Processes**  
*Defining values and systems that are the basis of a strong culture.*

*"Does our system create leverage?"*

**Every organization needs to have capabilities in these four areas!**

## Each of the four traits has three indexes:

### Adaptability

#### **Patterns...Trends... Market Place**

*Translating the demands of the business environment into action*

*"Are we listening to the marketplace?"*

indexes:

- Creating Change
- Customer Focus
- Organizational Learning

### Mission

#### **Direction...Purpose...Blueprint**

*Defining a meaningful long-term direction for the organization*

*"Do we know where we are going?"*

indexes:

- Strategic Direction and Intent
- Goals and Objectives
- Vision

### Involvement

#### **Commitment...Ownership... Responsibility**

*Building human capability, ownership and responsibility.*

*"Are our people aligned and engaged?"*

indexes:

- Team Orientation
- Capability Development

### Consistency

#### **Systems...Structures...Processes**

*Defining values and systems that are the basis of strong culture*

*"Does our system create leverage?"*

indexes:

- Core Values
- Agreement
- Coordination and Integration

**Each of these indexes is made up of five survey items for a total of sixty items.**

# **To What Benchmark Is My Company Being Compared?**

- ◆ **The database includes over 750 organizations.**
- ◆ **The sample includes organizations from all over the world. About 75% of them are from North America.**
- ◆ **The benchmark is comprised of both large and small companies from a wide variety of industries.**
- ◆ **The differences between countries and industries are small compared to the differences within each individual organization.**

# Understanding Your Results

This is one of the four key traits that impact business performance.

This is a percentile score. A percentile is your organization's score as a percentage benchmarked against the average of other organizations. (This average is called a norm.) This organization, for example, scored better than 50 percent of all of the companies in the database in the area of Goals and Objectives.

Stable

The profile is colored to show the quartile in which the percentile falls. This score, for example, falls in the second quartile.

This is one of the three indexes that measure behaviors for this trait. Each of the twelve indexes consists of five survey items.

# Understanding Your Line Item Results

This is one of the four traits in the model.

*In this organization...*

## Empowerment

Most employees are highly involved in their work.

Decisions are usually made at the level where the best information is available.

Information is widely shared so that everyone can get the information he or she needs when it's needed.

Everyone believes that he or she can have a positive impact.

Business planning is ongoing and involves everyone in the process to some degree.

*In this organization...*

## Team Orientation

Cooperation across different parts of the organization is actively encouraged.

People work like they are part of a team.

Teamwork is used to get work done, rather than hierarchy.

Teams are our primary building blocks.

Work is organized so that each person can see the relationship between his or her job and the goals of the organization.

*In this organization...*

## Capability Development

Authority is delegated so that people can act on their own.

The "bench strength" (capability of people) is constantly improving.

There is continuous investment in the skills of employees.

The capabilities of people are viewed as an important source of competitive advantage.

Problems seldom arise because we have the skills necessary to do the job.\*

## Involvement

Quartile Percentile 0 1st 25th 2nd 50th 3rd 75th 4th 100th

These are the four quartiles in which your percentiles may fall for each item.

These are the percentile scores for each line item. Your line item score is also benchmarked against how other organizations scored on each item.

An item with an asterisk (\*) has wording that is reversed from the way it was presented in the survey.

These are the items as they appear on the survey.

The +/- symbols indicate that the item was one of the top five (+) or bottom five (-) scores on this survey.

# Understanding Your Hi-Low Results

Your Company Name

## Highest Score

-  Customer input directly influences our decisions.
-  Customer comments and recommendations often lead to changes.
-  91 Ignoring core values will get you in trouble.
-  All members have a deep understanding of customer wants and needs.
-  We make certain that the "right hand knows what the left hand is doing."

These are the five items for which your organization received the highest percentile scores. They are listed in order from highest to lowest score.

## Lowest Score

-  Problems seldom arise because we have the skills necessary to do the job.\*
-  13 Working with someone from another part of this organization is not like working with someone from a different organization.\*
-  We encourage direct contact with customers by our people.
-  Few things "fall between the cracks".\*
-  Attempts to create change seldom meet with resistance.\*

These are the five items for which your organization received the lowest percentile scores. They are listed in order from lowest to highest score.

The colors indicate the traits to which each item is attributed for easy identification of patterns and trends.

## What is Merchandising?

**mer·chan·dis·ing** also mer·chan·diz·ing (mûr ch "d z "g)

### NOUN:

Merchandising is the way we present products to attract the attention of consumers and create sales. To be effective, merchandising needs to be closely connected and consistent with all other parts of the sales process. This includes advertising, promotions, display fixtures, signage and sales strategies.

After all, we have 2.5 seconds to engage the consumer and persuade them to make a purchase.

### LICENSED PRODUCTS MODULE

#### WHAT'S ON THE AGENDA

- ❖ Third Party Software Update – Sandy
- ❖ Brand Licensing – Damon
- ❖ Q&A – Sandy and Damon

---

---

---

---

---

---

---

## YOU HAD QUESTIONS

WE'LL ADDRESS THEM ~  
HEAD - ON!

PLUS MORE!

---

---

---

---

---

---

---

**FIRST . . .**

**How IMPORTANT is  
Third Party Business to Nintendo?**

- ❖ Third party partners are responsible for close to 60% of Nintendo's software business and contribute to Nintendo's overall bottom line profitability.

**BOTTOM LINE**

- No Publishers
- We don't compete
- They are that important!!

---

---

---

---

---

---

---

**Who Finished On Top?  
First Half 2008**

60% of Third Party software came from these six partners:

- ❖ **ACTIVISION** (#3 2007)
- ❖ **UBISOFT** (#2 2007)
- ❖ **EA** (#1 2007)
- ❖ **THQ** (#4 2007)
- ❖ **SEGA** (#6 2007)
- ❖ **LUCASARTS** (NOT RANKED IN 2007)

---

---

---

---

---

---

---

## YOUR QUESTION

*There is a perception among retailers and game reviewers that we have relaxed our standards for third party developers who wish to publish Wii games. Is there a danger in allowing games of questionable quality to enter the market and negatively impact the Nintendo brand?*

---

---

---

---

---

---

---

## Let's Define

### "PUBLISHER"

(aka "Licensee")

An independent company who has contracted with Nintendo for the use of Nintendo technology and/or images in the creation of their product.

---

---

---

---

---

---

---

AND WE HAVE PLENTY OF THEM!

---

---

---

---

---

---

---

### What's the role of the respective partner?

#### Role of Publisher

- Work with the Developers
- Market the product (determines PR message, announcements, media campaign, merchandising, channel promotions, etc...)
- Forecast / Order / Sell the product.

#### Role of Nintendo

- Establishes development guidelines.
- Establishes packaging and image guidelines.
- Approves marketing assets (not plan).
- Manufactures the product.
- We do not judge the quality.

---

---

---

---

---

---

---

---

### Who Determines Quality?

These titles received low metacritic scores  
(aka: *crap-o-meter*)

- ❖ Mario and Sonic at the Olympic Games
- ❖ Carnival Games
- ❖ Guitar Hero: Aerosmith
- ❖ Cooking Mama
- ❖ Wii Play
- ❖ Sonic Riders: Zero Gravity

---

---

---

---

---

---

---

---

### It's in the Eye of the Beholder

- ❖ Core gamer vs. a 45-minute game player or the "Expanded Audience" – different rating.
- ❖ Different games appeal to different levels of players.
- ❖ "Cheap" doesn't always mean low quality.
- ❖ Just like with any other consumer product, clothing, TV., home appliances, there are different levels of quality.

---

---

---

---

---

---

---

---

Myth: 3rd parties games are of poor quality.

## What happens when the "Expanded Audience" Is Right!

- ❖ Guitar Hero III: Legend of Rock
- ❖ Mario & Sonic at the Olympic Games
- ❖ Carnival Games
- ❖ Rayman Raving Rabbids
- ❖ Lego Star Wars: The Complete Saga
- ❖ Game Party
- ❖ Madden NFL '08
- ❖ Tiger Woods PGA Tour '08
- ❖ Resident Evil 4

---

---

---

---

---

---

---

---

Myth: 3rd parties games are of poor quality.

## Challenges to Publishers' Success in the New Generation

### Traditional Success

- ❖ Strong Graphics
- ❖ Clearly defined demographic (18-30 year old male).
- ❖ Increasingly complex control schemes – "Gamers Games"

### Nintendo Success

- ❖ Re-engage consumers who had stopped playing
- ❖ Attract new gamers
- ❖ Create products that appeal to everyone (core gamers and new gamers alike)

---

---

---

---

---

---

---

---

## NINTENDO CAN HELP PUBLISHERS MAKE THOSE "QUALITY" TITLES SHINE

### Publishers Objective:

Get support for their titles, i.e., either with marketing \$\$ or marketing exposure.

### Nintendo's Objective:

Find the titles that are going to sell HW and provide variety.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

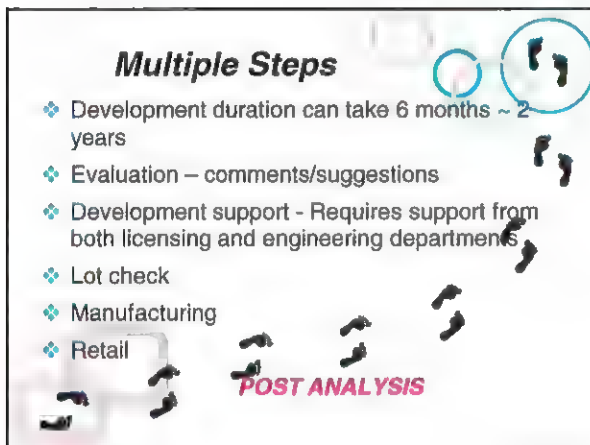

---

---

---

---

---

---

---

---

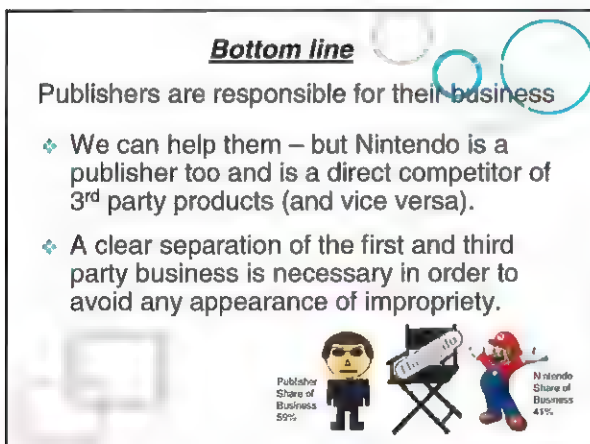

---

---

---

---

---

## ***We have to remain separated***

### **Legal Separation:**

Any changes to the Nintendo product, pricing, timing, etc. could be viewed as breaching the trust of the 3rd party publisher and could be anti-competitive and subject to scrutiny.

Share of business is combined DS and Wii SW – NPD May 2008

---

---

---

---

---

---

---

## **YOUR QUESTION**

***How can companies like Datel and Nyko make similar nunchuks to ours and not violate any patent laws?***

### **THEY CAN'T**

- ❖ **June of 2008** - Nintendo filed a lawsuit against Nyko Technologies, Inc. relating to Nyko's design and sale of a "Wireless Nunchuck" controller that infringes Nintendo's trademark and patent rights.
- ❖ **July 31, 2008** - Nintendo filed a motion for a preliminary injunction to prevent Nyko from continuing to sell products that infringe on Nintendo's intellectual property.

---

---

---

---

---

---

---

## **YOUR QUESTION**

***What exactly are a third party's benefits to licensing accessories? More and more accessories seem to be unlicensed than ever before.***

---

---

---

---

---

---

---

### **Benefit is Quality Product**

**Quality = Seal**

**Seal = Higher Sales**

- ❖ Accessories Bundled with Licensed Software
  - **Assures quality** – if it's bundled with licensed software it's been tested, approved and licensed.
- ❖ Stand-Alone Accessories
  - If the **seal** is on the box, it's been **tested, approved and licensed**.

---

---

---

---

---

---

---

### **YOUR QUESTION**

- ❖ *Why are some hot titles available for the competition and not to Nintendo, or yet, if we do get the title, it's usually "after" the competition?*
- ❖ *Why do we only get certain titles from EA the other companies get? Specifically EA Hockey and NASCAR. Or other licensees like Call of Duty 4?*

---

---

---

---

---

---

---

### **Product Development**

- ❖ **Xbox 360** and **PS3** can be developed simultaneous using same dev team.  
*Develop on one → port to another*
- ❖ **Wii/DS** – The Wii Remote and DS touch screen are unique. Requires completely different code – unique dev team.
- ❖ As the installed base grows and our gaming audience expands – so will the library!

---

---

---

---

---

---

---

## YOUR QUESTION

**And last . . Phrased 35 different ways:  
What's coming out in Q4 and how can we  
get info before retail?**

- ❖ Withholding information is not our choice. We have to respect our partners – it's their business – their information – their timeline.

# Wii Music

DRAFT - Made Names & Other Names Not Final

Date: 8/13/08

## GAME FACTS

Format	Wii
Release	10/20/08
ESRB Rating	Projected E
Game Type/Genre	Music game
Contact	Steven Grimm/Jonathan Yekkeley
Target Audience	Expanded audience, families, people interested in music
Players	1-4
Developer	Nintendo
Accessories	Wii Remote, Nunchuk, Wii Balance Board
Language	English, Spanish, French
Connections	WiConnect24

## Key Information

Join a band and jam up with up to four friends! Anyone can play the huge selection of instruments in Wii Music with simple motions—like strumming and drumming!

- It's easy to play improv jams. Everyone in your band jams by simply playing their instruments to the beat of a song or by improvising to their heart's content. Play faster, Play slower! Stop a beat, or throw in hot riffs. No matter what you do, Wii Music automatically transforms your improv play into great music! There are no mistakes and no game scores—just playing for the pure joy of playing!
- Wii controls immerse you in the music. You can play most of the 60-plus instruments in Wii Music using simple motions on the Wii Remote and Nunchuk controllers. Strum to play guitar, harp, and steel drum to play jazz drums, congas, and snare drum! Hammer away to play piano, vibraphone, and marmalade! Unlike most music games, Wii Music doesn't make you use many complex buttons. You only need to master playing the instrument.
- Wii Music offers virtually endless ways to make music. You choose the song, you choose the instruments. So you can make through a rock tune on Beethoven's "Ode to Joy" or put a classical spin on "Scarborough Fair" or even transform Nintendo songs like the Super Mario Bros. theme into a Latin American number. The song list is only a tap-off point—it's how you improvise with the songs that matters.
- Send your bandjam recordings to Wii Friends who have Wii Music! They'll see your Wii band members, your players' improv styles, and your instrument selections. They can watch your recordings, or play over parts of your song, then send their modified recording back to you. So you can send improv jams back and forth over WiConnect24, changing them again and again!

## Instruments: Pick Up and Play

Most of Wii Music's instruments are played primarily using simple motion controls, as shown below. A handful of instruments, such as the saxophone, are played primarily by pressing buttons.

**Jazz Drum Set** → Just Drum!  
Imagine the drum set in front of you, then use the Wii Remote controller and Nunchuk controller as drumsticks.

**Piano** → Hammer Away!  
Imagine the piano before of you, then use the Wii Remote and Nunchuk controllers to hammer on the keys, or to hit the notes delicately, if you want!

**Acoustic Guitar** → Strum!  
Hold the Nunchuk controller right like a guitar neck, then strum with the Wii Remote controller.

**Saxophone** → Tap & Press Buttons!  
Hold the Wii Remote to your mouth to really get into the act of playing, then tilt the Wii Remote upward to belt out loud music or downward to play softly. You can play sounds by pressing buttons.

**Violin** → Bow & Press Buttons!  
Imagine a violin tucked under your chin as you hold the Nunchuk in its neck, then draw the Wii Remote back and forth across its violin strings, while pressing buttons to play notes.

**Additional Wii Music Controls!**  
All instruments offer additional button control for more musical variety. For example, while "bouncing on the piano" using motion control, holding the B button cuts off each piano note for a clipped "staccato" effect.

## Jam Masters: Play Toward Mastery

Wi Music stands in a class of its own. Compared to most other music games, which penalize players if they don't play perfectly, Wi Music is a musical playground where there are no mistakes. But there are nearly endless ways to play the instruments and songs, and that's where the jam masters come in!

When not playing with friends, you can invite jam masters to play with you. They'll join a session playing an instrument that each thinks is strong for a specific song. You can simply enjoy the musical camaraderie, or pick up instrument tips by watching them jam!

Each of the 60-plus instruments has a lot of musical depth and variety. The jam masters will show you lots of techniques for many of these instruments, then ask you to follow their examples. They'll start with the simplest techniques, then as you master each one, show you even more nuanced ones.

## Jam with Bands: Solo, Multiplayer, and Wii Friends

Every band has six members. Two play the main melody, two cover the percussion beats, one covers the bass groove, and one uses the song's chords to support the melody. As a band, the six members often play their special parts at the same time, though each player can jam however and whenever he or she wants. Play all at once. Take turns in the spotlight. Pair up in creative ways throughout the song. You can bring the band to life by you self, playing one part at a time—or with up to four players!

**Solo play:** When you play by yourself, you can add one part at a time to arrange the whole song exactly how you want. Jam masters are on hand to back up your band in any parts you need filled.

**Multiplayer:** When in a band with friends, up to four people can be band members.

**Wii Friends:** Using WiConnect24, you can send your jam recordings to Wii Friends who own Wi Music. The recipients can then watch your performance, modify it to their liking, and send their modified jam recordings back to you!

## Additional Modes: Even More Music Play

Wi Music includes many other modes besides the main band jams, including several musical games and an enhanced video playback mode for recorded jams.

**Playlist Mode:** Watch your jam recordings in an enhanced playback mode that brings your jams to life with live action on the screen and dynamic camera angles.

**Music Mode:** By saving the Wi Music like a performer's solo, you can watch and evaluate through enhanced songs, such as The Legend of Zelda theme. With them, they quickly, clearly, strongly, or gently—of the original song.

**Music Mode:** In the musical margins, you'll play in a band of six members by singing your life away and Hunches. Everyone in the team has a job to do: play one of your notes when the time demands it.

**Music Mode:** How good are you at musical ear? In the Music Mode, you'll have to solve challenges, like putting notes-playing. Make your band work to higher pitch.

**Music Mode:** In the Music Mode, you'll play in a band of six members by singing your life away and Hunches. Everyone in the team has a job to do: play one of your notes when the time demands it.

# Animal Crossing®: City Folk

Date: 7/9/08

## GAME FACTS

Release	November 16, 2008
Game Type/Genre	Community Simulation
Target Audience	8+, Animal Crossing Fans, Parents and Children, Expanded Audience
Developer	EAD
Languages	English, French, Spanish

## Key Information

If life were an endless vacation, what would you do?

Go fishing, collect shells, or watch fireworks with friends? Build a snowman, exchange presents with family, or decorate your house for the holidays? Take a trip to the city, go on a shopping spree, or visit friends from all over the globe? In Animal Crossing, life moves at a relaxed pace, but the world brims with endless possibilities.

*There's always something new to do!* In the living, breathing world of Animal Crossing, days and seasons pass in real time, so there's always something to discover. Catch Bliettes in the summer, go trick-or-treating on Halloween, or hunt for eggs on Bunny Day. If you're in the mood for something a little faster paced, take a trip into the all-new city and catch a show at the theater, check out the sales at Grace's boutique, or change up your look at the salon! But if you don't show your face for too long, your neighbors will miss you!

*The perfect place to hang out with friends!* The heart of Animal Crossing is building relationships with other players as well as the animals in your town. Live with up to three other people from your household and build the perfect town together! Design clothes and patterns, write letters, and post messages on the bulletin board for each other, or invite up to three friends to visit your town using Nintendo Wi-Fi Connection—with the new Wii Microphone (name TBD). It's like you're all in the same room!

*Get to know your neighbors!* Befriend your animal neighbors by exchanging letters, gifts, and favors. Animals can also move from town to town, and when they do, they bring their memories of life in your friends' towns with them. And since animals are notoriously loose-lipped, they spit all the juicy details!

*Express your personal style!* Customize your town, your house, and yourself by collecting bugs, fish, fossils, art, furniture, clothes, and accessories. You can also go to the salon in the city to change your hairstyle and get a 15% makeover. Plus, if you design clothes in the tailor's shop, animals will wear them and maybe even bring them to other towns!

## Game Description

### Story/Plot

You make the whole story, as you and up to three other players move into a town and just live life. Befriend your animal neighbors, decorate your house with cool furnishings, fill up your wardrobe, get to know the local wildlife, take a trip to the new city, and just explore the world. There are a million different ways to play.

### Characters

Familiar faces such as K.K. Slider, Tom Nook, Blathers, and Mr. Resetti, all appear in this installment, as well as a bunch of all-new characters. Many of the characters who occasionally visited your town in previous Animal Crossing games have now set up permanent shops in the city, so you can see them anytime.

## Game Description

### How to Progress Through the Game

Move into town, buy a house, and then do whatever you want! Time and seasons pass as they do in the real world, so there's always something different happening. Collect over 2,400 items, befriend your animal neighbors, go fishing, catch bugs, dig up treasure, hang out with other players, or take a trip to the new city.

### Special Powers/Weapons/Moves/Features

Use the Wii Remote pointer to type letters, use items, draw designs for clothing or wallpaper, drag clothing or items onto your characters, interact with animals or objects, or lead your character around the world. Use Nintendo WFC to hang out in real time with up to three of your friends. You can also send them emails and text messages from the game!

## New Features

### The City

Take a trip to the all-new city to auction items to your friends, do some high-end shopping at Gracie's boutique, get a Mi makeover, catch a show at the theater, or scope out the Happy Room Academy's top-scoring house!

## New Features

### Wii Speak (TBD)

Use the Wii Microphone (TBD) to chat with friends in real time!

### Calendar

Play at different times of year to experience different activities, holidays, and seasons.

## Key Information

Personal Trainer: Cooking is a training title that brings gourmet cooking from around the globe to your Nintendo DS. It features a DS Chef, your own private cooking instructor who talks you through 245+ recipes from over 30 countries worldwide. It's a combination of interactive cookbook and live cooking demonstration that'll have you cooking like a pro, even if you've never lifted a knife before.

- Learn from the best! You and the Chef will collaborate on a wide variety of recipes, with videos of techniques, explanations of ingredients, and expert advice. With its innovative interface and the interactivity that only the DS can provide, it's a perfect learning tool for the budding chef.
- Shop with the DS! As you browse recipes, just tap a box to mark ingredients you need to buy. The DS will automatically store them in your in-game shopping list. Later you can take your DS to the store and check off the ingredients as you put them in your cart.
- What do you want to cook today? Search for recipes by ingredients, calorie count, cooking time, difficulty, and more.
- Talk back to the Chef. Hands covered in batter? Keep your DS clean using voice commands to continue to the next page, repeat a step, go back, and more.

## Game Description

The first thing to do is select a recipe. With 245+ to choose from, Personal Trainer Cooking makes it easy to find what you're looking for by helping you browse by country, ingredients, difficulty, cooking time, cooking technique, or even calorie count.

Once you've found something that looks tasty, take a look at the ingredients. Out of butter or need to buy some corn? Just tap them with the stylus to automatically add the ingredients to your Shopping List. Making several dishes tonight? Just keep tapping ingredients—your Shopping List keeps it all in one place for you.

Now that you've got your ingredients, it's time to start cooking. The DS Chef is there with you, taking you through every step along the way. Don't know how to fillet a trout? Watch the demonstration video when you get to that step. Didn't quite catch the last step? Just say "Repeat," and the Chef will explain it again. You can pause the recipe at any time to consult the Cooking A-Z guide, and prompts will appear within recipes for specific terms you might need more information about.

## Game Description

When you finish each recipe, you put a stamp on the in-game calendar marking what you've made and when you made it. Later, you can search by whether or not you've made a dish before, allowing you to perfect your technique on a particular recipe, or keep expanding your culinary horizons.

With an extensive in-game reference of cooking terms, pictures, and demonstration videos, you can tailor your cooking experience to your level of skill, then watch that skill grow as you keep cooking.

The game can be controlled entirely with the stylus, for maximum accessibility.

When your hands are full, covered in cookie batter, or otherwise unavailable, all of the in-recipe commands can be given by speaking to the DS microphone.

The keyword search function uses handwriting recognition, so you can simply write out that you're looking for "sweet and sour" something. Finally, that same handwriting recognition is used to make notes on recipes. If you want to remember to reduce the salt, or simply that this recipe was especially tasty, the software takes the same role as the hand-written note in the cookbook.

## Key Information

Become a Pokémon Ranger and protect nature, rescue people, and Pokémon in need in the all-new region of Almia.

**Use the Ranger Capture Styler in this Action Adventure!** Pokémon Ranger: Shadows of Almia is a unique Action-Adventure game that features a different way to capture (tame) Pokémon with the DS Styler, referred to as the Ranger Capture Styler in the game. When you complete certain Quests, the Ranger Union awards you with Power-ups for the Capture Styler. The Capture Styler upgrades to new functions and evolves as you work to become a Top Ranger.

### Advance to Top Ranger while exploring the region of Almia!

Your journey of exploration and adventure to become a Top Ranger (the most revered Ranger of all) takes you to the region of Almia. Gain experience while traveling to many new areas in Almia including oceans, forests, deserts, and many more.

### Partner with Pokémon from each type to complete Missions!

Capturing (taming) a Pokémon allows you to use its ability and solve various problems you will face along the way. Some of your Ranger duties will include fighting wildies, rescuing people in need, delivering an important package and more.

### Includes Pokémon from Diamond and Pearl!

Ranger: Shadows of Almia is the first game in the Ranger series to feature Diamond and Pearl Pokémon—allowing more variety in your game play.

## Game Description

In Pokémon Ranger: Shadows of Almia (Ranger 2), you once again play as a Pokémon Ranger—working to help people, Pokémon, and nature in an all new area called the Almia Region. Starting out as a Ranger Student, you quickly earn the title of a full-fledged Pokémon Ranger. As you succeed in more and more Missions, you will aspire to become the highest ranger rank, "Top Ranger."

One day, a mysterious phenomenon begins when wild Pokémon start acting violently. As a member of the Rangers, you start to investigate the cause and find out that a big syndicate is attempting to rule the world by harnessing the Pokémon's power. It is up to you to halt this syndicate's nefarious plans and set things right in the region of Almia.

You use a device called the "Capture Styler" to "tame" a wild Pokémon and attempt to take it into helping you out. Once the Pokémon is convinced (captured), they will join your team until you use them to overcome various obstacles or help capture other Pokémon. As you level up, your Capture Styler will improve and allow you to enjoy your adventure all the more!

Choose from hundreds of Pokémon to assist you. You can choose to be a boy or girl.

## Game Description

Capture wild Pokémon and create a team to clear obstacles and puzzles encountered along the way. After utilizing a Pokémon's ability, it will leave your team, however, you will have a partner Pokémon that will never leave your side. As you progress through Missions and Quests, your Capture Styler becomes more powerful, giving you more Styler Energy and leveling you up to the advancement of Top Ranger!

Use the Capture Styler to capture wild Pokémon. Once they are captured, wild Pokémon will follow the player around until their powers are used (either in a Poké Assist or a Field Move).

- A Poké Assist is when the player uses an already captured Pokémon to help capture another wild Pokémon.
- A Field Move is when the player uses a captured Pokémon's power to clear an obstacle in their way.

## Game Information

### Adventures in Almia!

Becoming a Top Ranger takes you to the Region of Almia—a different land from the Fiore region featured in the first Ranger game and different than the regions seen in Pokémon Diamond and Pearl!

This new region, Almia, is twice the size of the region in the previous Ranger game, bringing in a more dynamic storyline full of adventure, Missions, and Quests!

Almia has several towns and villages that you will visit along the way. In addition, facilities that support Ranger duties, such as the Ranger Base (where you can recharge your Styler and receive new Missions) are located across the region.

## Game Information

### Embark on an adventure with Pokémon!

Poké Asa's makes capturing easy!

While you are capturing Pokémon, your partner Pokémon and friend Pokémon help you with their Poké Assist. Below are a few examples of how the various Poké Assist can affect your Styler here.

Flowers grow from a tree you draw which the Slow condition.

Set fire inside the tree to infect the Trid condition!

Slide the Styler to shake the ground and infect the Paused condition!

### Partner with Pokémon to complete your Missions and Quests!

You can ride on your Pokémon traveling through new terrain allowing you to traverse the region of Almia with ease.

## Key Information

**Spot Clues to Find the rightful heir!**  
It takes a keen set of "private eyes" to identify the heir in this seek-and-solve detective story. Mystery Case Files: MillionHeir presents a new generation of search-and-solve games for a new generation of Nintendo DS owners. Whether you like to play for minutes at a time or hours a day, Mystery Case Files: MillionHeir has your game experience covered.

- Delve into the latest evolution of search-and-solve fun!** The game showcases highly detailed interactive scenes in which players look for cleverly hidden items in order to solve the case, an experience made for the added ease and interaction of stylus controls. With Nintendo DS specific controls and activities, Mystery Case Files: MillionHeir takes a bold step into the Touch Generations with an all-new game in the accomplished Mystery Case Files series.
- Unique Nintendo DS-specific features!** Mystery Case Files: MillionHeir includes intuitive touch screen control using assistance items like an X-Ray scanner, flash light and more. All new interactive objects and hands-on sleuthing like dusting for finger prints deepen the experience.
- Playing With Friends!** Mystery Case Files: MillionHeir is the only Mystery Case Files game to include multi-player options. In multi-player modes players can search for clues together or compete against each other in real time. Mystery Case Files: MillionHeir also includes game-sharing DS Download Play so friends and family can share the experience.

---

---

---

---

---

---

---

---

## What's seek-and-solve?

A search and solve game displays objects in plain sight for the player to find. Can you find both of the teddy bears? Hint: ..... There are actually three of them!

M. F. seek-and-solve example

---

---

---

---

---

---

---

---

## Game Description

Mystery Case Files: MillionHeir is a completely new title based on the highly popular casual Mystery Case Files franchise. Mystery Case Files: MillionHeir is a seek-and-solve game where players assume the role of a detective who investigates quirky characters by searching through their environments. The objects are displayed in plain sight but are seamlessly interwoven into the illustration, making them challenging to find.

Once a player finds enough hidden objects in a certain area, the character and area will be considered investigated. The player will then be prompted to move to the next potential

---

---

---

---

---

---

---

---

## Stylus-Controlled Items

With the stylus, players wield items that help the player to solve the case. These items change the game play and add depth to the experience.

When the lights go out, players will have to move the flashlight around with their stylus.

---

---

---

---

---

---

---

---

## More Stylus-Controlled Items

Only on the Nintendo DS can players unlock more hidden items by utilizing X-Ray Vision!

---

---

---

---

---

---

---

---

## Mini-Games

Finding hidden objects is not the only activity in Mystery Case Files: Millionaire! Between investigations, players are presented with entertaining brain teasers that must be solved in order to progress. These mini-games add to the depth of the experience by including game play mechanics that reach beyond the core searching elements. All of the mini-games utilize the DS stylus in ways that provide a true Touch-Generations experience.

---

---

---

---

---

---

---

---

### More mini-games

With unique mini-games available only to Nintendo DS players, Mystery Case Files Millionaire's rendition of Mystery Case Files is the most feature-rich yet. Players use stylus control to animate and solve brain teasers. As an example, take a look at this sketch-style puzzle found in Mystery Case Files. Millionaire. Follow the arrows to see where players will use the stylus.

---

---

---

## Presentation Skills

A presentation is more than just talking, writing, or making a speech

### WHAT MAKES A SUCCESSFUL PRESENTATION?

- Knowledgeable about the product being presented
- Speak clearly & concisely
- Be enthusiastic
- Watch your body language-are you smiling, fidgeting, etc..
- Be careful of industry jargon

### REMEMBER.....

Product education is always a presentation whether it is five or forty five minutes

---

---

---

---

---

---

---

---

### *Delivery Strategy*

- Educate as early in the store call as possible
- Know when to and when not to educate store associates
- Maximize your education by speaking with a group
- Educate in a group using required resources
- Make product education fun by giving quizzes & trivia questions to store personnel
- Educate at every available opportunity. Every minute counts!

## Safety Overview & Update

---

---

---

---

---

---

---

---

## Safety – A Nintendo Core Value

- Nintendo is committed to providing you with a safe and healthy work environment.
- Every employee must balance productivity, quality and safety, whatever the task, to be as effective as possible.
- If ever we must choose between productivity, quality, or safety – safety will always take precedence.

## How is NMI doing?

---

---

---

---

---

---

---

---

## Changes to the Incident Form

- No longer need to send by "overnight" delivery
  - Original, signed, incident form can now be sent by regular mail within 5 business days of the incident to Gary Cursi
  - Still need to submit the electronic version to the **NMI Incident Report** e-mail group within 48 hours of the incident
